WHOLESALE LIST

1963 - 1964 SEASON

YOUR CUSTOMERS WILL HAVE MORE SUCCESS WITH CHRISTENSEN-GROWN ORNAMENTALS FOR SEVERAL REASONS:

1. Plants are grown in the Saratoga foothills, in fresh, clean air and irrigated with sparkling mountain spring water. A combination that produces better foliage color.
2. Plants are grown in soil. A large share of our soil mix is from virgin foothill loam, containing natural organic elements. We supplement with a regular feeding program.
3. The not-too-hot, not-too-cold climate of our foothill growing grounds provides a happy balance that delivers plants in the optimum condition for quick growth response.
4. There is more choice in sizes from our stock. Specimen Trees and shrubs save your customer years of waiting - make a larger sale and more money for you.
